Server response

Code	Details
200	Response body <pre>{ "course_code": "COMP SCI 564", "title": "Database Management Systems: Design And Implementation", "description": "What a database management system is; different data models currently used to structure the logical view of the database: relational, hierarchical, and network. Hands-on experience with relational and network-based database systems. Implementation techniques for database systems. File organization, query processing, concurrency control, rollback and recovery, integrity and consistency, and view implementation." }, { "course_code": "COMP SCI 574", "title": "Data Management For Data Science", "description": "An introduction to the principles and practices of managing and exploring different kinds of data. Work with both relational databases and Not only SQL (NoSQL) databases to organize and analyze structured, semi-structured, and unstructured data. Write basic queries, forecast time-series data, and evaluate data quality and patterns through exploratory data analysis. Explore data cleaning techniques such as interpolation and imputation, to address missing or inconsistent values. Apply data engineering techniques, including data pipelines, data warehouses, and processes for moving and transforming data using Extract-Transform-Load (ETL) and Extract-Load-Transform (ELT). Learn how modern language models can be adapted using contextual information from custom datasets and strengthened with techniques that incorporate external knowledge sources." }, { "course_code": "COMP SCI 764", "title": "Topics In Database Management Systems". }</pre> Download Response headers <pre>access-control-allow-origin: * content-length: 3661 content-type: application/json date: Mon, 24 Aug 2026 14:54:54 GMT server: uvicorn</pre>

Responses

Code	Description	Links
200	Successful Response Media type application/json Controls Accept header. Example ValueSchema <pre>{ "answer": "string", "sources": [{ "course_code": "string", "title": "string", "description": "string" }], "response_time_ms": 0}</pre>	No links
422	Validation Error Media type application/json Example ValueSchema <pre>{ "detail": [{ "loc": ["string", 0], "msg": "string", "type": "string", "input": "string", "ctx": {} }]}</pre>	No links
